Selected item projections (known values)	KES 15638.88
Annual uniforms (unallocated by month)	KES 0.00

Projected procurement budgets only: not inventory, purchase orders, goods received, expenditure, settlement or payment. Blank quantities are unplanned; known totals are partial. Monthly dates represent the first day of the planned month. Uniform budgets are annual and are not invented as monthly/daily allocations.
Plan inflation assumption: 5.00%. Item overrides are retained. Adjusted prices rounded half-up to currency cents; quantity precision 0.001; each monthly amount rounded before summation. Blank months in this selection: 0.
Uniform method: staff × quantity per staff, explicitly selected opening-balance treatment, gross purchase cost less explicit percentage staff contribution. No source formula is executed.

Synthetic testing only — not a live hospital
